- crush-proof snake guides

ZG Helios™ 907-4 Tip 10.0 Fly Rod

A great saltwater, big salmon, big trout, and smallmouth rod.

This new patent pending Helios 7 weight is as light as some 4 wt rods while also having the fish fighting power of many 9 wt rods. The 7 wt is far less fatiguing, deadly accurate, and extremely powerful. There is no comparison. The 7 weight Helios fly fishing rods are that good. And everyone is noticing.

"A New Dawn in Rod Making"

- *Fly Rod & Reel Magazine*

"Wow! Super light, and delivers both in the delicacy and the power departments. Orvis' best stick yet."

- *Mike Conner, Editor, Shallow Water Angler magazine*
